The Story of Ceres

On planet Ceres, peace had not been known for centuries. The many Nations of sentient beings had been at war for almost as

long as anyone could remember. The countless conflicts and clashes of weapons and spells of mass destruction threatened to tear the very planet apart.

Therefore, the planetary council of magic intervened. The representatives from every nation joined forces to cast a powerful and terrible spell on the entire world. From then forth, all wars, and the fate of the planet itself, became connected to Card Battles carried out on another world.

This other world, is Earth. In order to resolve conflicts on Ceres, Leaders must seek out their other self on Earth and join forces with them in Card Battles. Go Now! Find your other self, form a Spirit Link, and claim victory! This is Card Battle Spirit Link!

Version 0.5.7 Update:

Version 0.5.7 Change Log:

- *Changed starting life to 20 for the first player, and 23 for the second player.
- *Fixed a glitch with "Elder Warlock, Crinsceptus" Leader Power. Previously, the leader power would only activate if there was another Dinosaur in the drop zone after Banishing a card. This has been fixed.
- *"President's Determination" now grants +0/+8/+0
- *New artwork and visual changes.

More on changes to starting life:

The new starting life amounts (20 and 23) have been implemented in a trial period. This change was made to slightly alter the pace of the game. The goal is to still have fast paced gameplay, yet enable all players to play the game the way they want. Ideally this new life total will let players have more consistent access to their desired combos.

. Version 0.5.3 Update:

Here's what's new in Version 0.5.3

- *Added a "News" section.
- *Added a "Turn Another Page" option during the start phase of each turn in a Card Battle.
- *Small visual improvements

More on Turning Additional Pages. At the start of your turn, before you take any other actions ("While the End Turn button says "Turn Another Page" instead of "End Turn"), you may press the End Turn button. Instead of ending your turn, you will turn a page of your spell book. This feature was added to increase the number of options players have in a Card Battle. This feature should allow battles to be more exciting and varied while still maintaining a high level of planning and skill.. **Version 0.5.4**

Update:

Version 0.5.4 Change Log:

- *New card art
- *Changed the skills of "Maid Leader, Kathryn"
- *Fixed the sorting button in the book builder
- *Audio improvements
- *Reduced the chance of getting duplicate Leaders in Arena Mode
- *Added card previews for all cards in the player Drop Zone
- *New card border layout
- *Increased base stats by 2 for all non-0 cost Units(Explanation below)
- *Rewrote card text for consistency and clarity
- *Small visual improvements

More on stat changes:

CBSL has a cost/stat relationship as follows: 1 Energy = 4 in ATK/DEF = 2 Damage/Crit. Previously, 0 cost units had a vanilla base line of 1/1/2 and 1 cost units had a vanilla base line of 2/2/2. As such, players were paying 1 energy for a +1/+1 stat increase. This was not consistent with the cost/stat relationship and caused 0 drops to be overvalued. My apologies for this oversight. The issue has been resolved by adding an additional 2 stat points to all non-0 cost Units.

. Version 0.5.6 Update:

Version 0.5.6 Change Log:

- *Changed "Battery Fairy" effect
 - *Major fixes and upgrades to A.I.
 - *While hovering over a card in the enemy backrow, it's details will no longer be off screen.
 - *The attribute <Sealed Fairy> has been changed to <Sealed Faerie>. This change was to prevent confusion between the <Sealed Fairy> attribute and the <Fairy> attribute.
 - *Added an enemy energy counter.
 - *New artwork and visual changes.. **0.5.2 Patch Notes:**
- Hey there Card Battlers, this update is a big one.

Here's what we added:
